#### Attention customers:

#### Northeast California Telecom has a new calling plan!

Until now, Northeast California Telecom has charged a rate of 4 cents a minute for all domestic long-distance calls. Fees for long-distance calls to other countries have ranged from 18 to 32 cents a minute.

Due to an increase in customer demand for more affordable international calling rates, Northeast California Telecom has decided to introduce the following rate changes:

- ☑ All long-distance calls within the country will be billed at a new rate of 20 cents for the first minute plus 4 cents for each minute after that.
- ☑ All long-distance calls made to Canada and Mexico will be billed at a rate of 15 cents a minute.
- ☑ All long-distance calls made to other parts of the world will be billed at a rate of 22 cents a minute.

We realize this will slightly increase the cost of domestic long-distance calls, but savings on international calls will be substantial. In your billing statement, you can see how much you saved under the new system.

Thank you for your attention.
